Hi Sarah,

I would recommend we still have a meeting some time before the State meeting to address questions concerning what we would like to see WA do. I know I am unsure where we stand concerning Helen's analysis--whether we want the State to do something similar and incorporate it into the TMDL or if we are going to use it in EPA's decision document.

Thanks,

Julie

Subject: Placeholder meeting on Pend Oreille next week

Given that we left our meeting last week on the same page I am thinking of cancelling the place holder meeting on the 20th, or at least re-scheduling it closer to whenever the meeting with Ecology gets scheduled. Let me know if you have any objections.
